

How do I know if the OG Espresso Pods work in my espresso machine?

Our Espresso capsules are compatible with **any Nespresso* Original** or similar type of single-use espresso cartridge machine. Just check the shape of the pod, it must be like this:

NESPRESSO ORIGINAL

Single-serving machines like Pixie, Breville, Nespresso, Delonghi, Frigidaire, KitchenAid, Le Cube, Maestria, Inissia, Essenza that take the Original Nespresso pods are compatible with your OG Espresso Pods.

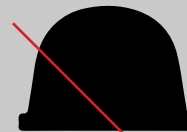

~~**NESPRESSO VERTUO**~~

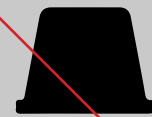

~~**LAVAZZA A MODO MIO**~~

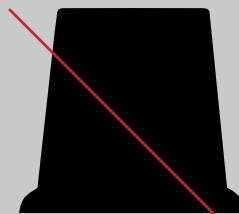

Other products like Keurig (k-cups), Vertuo, Dolce Gusto, Lavazza or Esspressotria have different shapes, these **won't** accept your OG Espresso Pod and are designed for bigger or smaller servings.
